ORDER RETURNING UNDOCKETED APPEAL TO EXAMINER

This application was electronically received by the Board of Patent Appeals and Interferences on 12 December 2008. A review of the application revealed that it is not ready for docketing as an appeal. Accordingly, the application is herewith being returned to the Examiner to address the following matter(s) requiring attention prior to docketing.

APPEAL BRIEF, SUMMARY OF CLAIMED SUBJECT MATTER

Appellant filed an Appeal Brief dated 21 April 2008. The Appeal Brief is not in compliance with 37 CFR § 41.37(c) effective September 13, 2004.

According to 37 CFR § 41.37(c) (v), an Appeal Brief must include the following:

(v) *Summary Of Claimed Subject Matter.* A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which must refer to the specification by page and line number, and to the drawing, if any, by reference characters. < While reference to page and line number of the specification **>requires< somewhat more detail than simply summarizing the invention, it is considered important to enable the Board to more quickly determine where the claimed subject matter is described in the application. >For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of 37 CFR 41.37(c)(1)(vii), every means plus function and step plus function as permitted by 35 U.S.C. 112, sixth paragraph, must be identified and the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification by page and line number, and to the drawing, if any, by reference characters.

The “Summary of claimed subject matter” appearing on pages 2-3 of the Appeal Brief filed 21 April 2008 is deficient because it does not separately map independent claims 1, 9 and 17 to the specification. Correction is required.

MPEP § 1205.03 states in part:

(B) When the Office holds the brief to be defective solely due to appellant's failure to provide a summary of the claimed subject matter as required by 37 CFR 41.37(c)(1)(v), an entire new brief need not, and should not, be filed. Rather, a paper providing a summary of the claimed subject matter as required by 37 CFR 41.37(c)(1)(v) will suffice. Failure to timely respond to the Office's requirement will result in dismissal of the appeal. See MPEP § 1215.04 and § 711.02(b).

APPEAL BRIEF, GROUNDS OF REJECTION

A review of the file finds that the grounds of rejection of the claims as provided in the Appeal Brief filed 21 April 2008 under the heading "Grounds of rejection to be reviewed on appeal" is unclear and/or is not consistent with the grounds of rejection of claims of record. The grounds of rejection of the claims as provided in the Appeal Brief must be consistent with the last Office action of record, including any Advisory action responsive to any after final submissions. Each Grounds of rejection to be reviewed on appeal must be identified.

A review of the last Office action, including any mailed Advisory Action(s) finds that claims 1-20 and 25 are rejected under 35 USC § 103(a); whereas Appellant(s) did not indicate the grounds of rejection of these claims. Correction of the Grounds of rejection to be reviewed on appeal for all claims is required.

APPEAL BRIEF, CLAIMS APPENDIX

A review of the Appeal Brief filed 21 April 2008 reveals that claim(s) 1-20 and 25 in the Claims appendix of the Appeal Brief are missing and/or are not consistent as amended in the last entered amendment filed on 20 June 2007. The copy of the claims should be in proper format and should not include any markings such as brackets or underlining except for claims in a reissue application in accordance with 37 CFR 41.37(c)(1)(viii). Furthermore, the Claims Appendix cannot assume entry of After Final Submissions for which an Advisory Action (or other Office communication) has not advised of entry. *See also Manual of Patent Examining Procedure* (MPEP) § 1205.02 (8th ed. Rev. 6, Sept 2007) for details.

Appropriate correction of all claims provided in the Claims Appendix in proper format is required.

EXAMINER'S ANSWER, EVIDENCE RELIED UPON

Section §1207.02 of the *Manual of Patent Examining Procedure* (MPEP) (Eighth Edition, Rev. 6, September 2007) states:

(A) CONTENT REQUIREMENTS FOR EXAMINER'S ANSWER. The examiner's answer is required to include, under appropriate headings, in the order indicated, the following items:

....

- (8) Evidence Relied Upon. A listing of the evidence relied on (e.g., patents, publications, admitted prior art), and in the case of nonpatent references, the relevant page or pages.

The Examiner's Answer mailed 5 June 2008 is deficient because the "Evidence Relied Upon" section fails to include the reference(s) "Love Bug Virus Raises New Concerns About Password Security" by PR Newswires cited on page(s) 13 -14 in the Examiner's Answer's grounds of rejection of claim 7 under 35 USC § 103(a).

Appropriate correction is required.

CONCLUSION

Accordingly, it is

ORDERED that the application is returned to the Examiner to:

- 1) hold the Appeal Brief filed 21 April 2008 defective, as required by 37 CFR § 41.37(d);
- 2) notify the Appellant to submit a "paper" which corrects the Appeal Brief's Summary of Claimed Subject Matter under 37 CFR §41.37(c)(1)(v);
- 3) acknowledge and consider any "paper" submitted by Appellant to correct the Appeal Brief;
- 4) notify Appellant to file a paper properly addressing the Grounds of rejection of all claims;
- 5) appropriate correction of the Claims Appendix of the Brief filed 21 April 2008;

Application No. 09/751,630

6) issue a PTO-90 citing the missing references listed under the Evidence Relied Upon section, paragraph (8); and

7) for such further action as may be appropriate.
